Addendum #1

RFP # 7548495

TITLE: RFP –MARINA AND LAND LEASE MANAGEMENT SYSTEM

Submission Deadline: April 15, 2014 @ 11:00 AM (Eastern Time)

ATTACHED ARE VENDOR QUESTIONS WITH STATE RESPONSES. NO FURTHER QUESTIONS WILL BE ANSWERED.

Gail Walsh
State of Rhode Island
Division of Purchases

Q1. What is the current location and format (CSV, Microsoft Excel, etc.) of RIDEM's source data that is to be imported/converted?

A1. The Coastal Management System is written in Informix and resides on the P550 at the Department of Administration, One Capitol Hill, Providence, RI. Data can be exported in an ACSII CSV file.

Q2. To what degree can we expect RIDEM to provide project management assistance? Will there be a dedicated or part-time RIDEM project manager and what staff will comprise RIDEM's project team?

A2. Two (2) DEM staff members will be assisting with project management and implementation on a part time basis

Q3. What is RIDEM's current marina management system? What is RIDEM's current financial system?

A3. The Coastal Management System is written in Informix and the RIDEM financial management system is written in Informix but they are two separate systems

Q4. Other than noted in the RFP, will any other financials be processed through the chosen system?

A4. No, simply what is described in the RFP

Q5. Will the chosen system also be considered the primary financial system, or will there be a need to interface with RIDEM's existing back-end financial system?

A5. This system will be the primary tool to manage financial information, port and land management, and berthing for the DEM's Division of Coastal Resources. It is intended to facilitate and organize the day to day management of the commercial port activity at State owned facilities. There is no intent to have this program interface with DEM's back end financial system, which will continue to post payments to the States accounts.
